Instructions for use for skin wash: Mix a small amount of product in the palm of the gloved hand (about half to one teaspoonful) with a little warm water and spread it over damp or dry skin. Rinse and pat the skin dry, but **DO NOT RUB**. The product can be rubbed into the skin and showered or washed off in the bath.

Instructions for use as Emollient: apply to the skin in a downward direction of hair growth and leave a thin layer to soak in – this may take 10 minutes. **DO NOT RUB IN**. If other products to be used wait at least 30 minutes

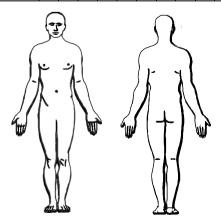

Additional notes:

Record of use of product as a skin wash. Use care plan to record area washed.
