

Good Practice Guidance for Care Homes
Room Temperature Monitoring Chart

MONTH:	YEAR:
---------------	--------------

Check each working day.

Room temperature must be no more than **+25°C**

If the temperatures are outside the recommended range: document any known reason, take appropriate action as indicated in the written procedure and document the action taken.

Date	Current Temp (°C)	Min Temp (°C)	Max Temp (°C)	Checked by	Thermometer Reset (tick)	Reason temperature out of range [if known] and Action taken
