## 1. Purpose of the briefing

This briefing document has been produced to assist Dispensing Doctor practices with the use of the Controlled Drug (CD) requisition form. On 30<sup>th</sup> November 2015 changes were introduced, which required health professionals obtaining supplies of schedule 2 and schedule 3 CDs in the community to use a mandatory requisition form, this includes all General practitioner (GP) practices when ordering from a wholesaler. The new approved requisition form, in electronic format, is available from NHS Business Services Authority (NHSBSA) website via the following link:

<https://www.nhsbsa.nhs.uk/pharmacies-gp-practices-and-appliance-contractors/prescribing-and-dispensing/safer-management-controlled-drugs> (accessed 9th May 2017)

The list of drugs (Section 2.) was produced using NHSBSA Electronic Prescribing Analysis and Cost (ePACT) information (May 2016). This is a full list, but may not be exhaustive, may contain some omissions and drugs that are non-formulary.
